Eternity written by Chinara Hill

This is not the way I had expected things to go
Stuck in the house cannot find no place to go
And I have some fears
That you won't be near
And that is worse than any disease I could ever conceive

I want you to be with me
I want you to never leave
But that is just fantasy
'Cause you got places to be
And I have my dreams
Why don't you stay with me?

Stay with me
Stay for eternity
That is how it's meant to be, my baby
Stay with me
Stay for eternity
That's how it's meant to be, baby

Can't you see how much this is affecting me?
I cannot go anywhere I want to be
And I have nightmares, my sleep is impaired
And this is causing anxieties I cannot relieve

I want you to be with me
I want you to never leave
But that is just fantasy
'Cause you got places to be
And I have my dreams
Why don't you stay with me?

Stay with me
Stay for eternity
Stay with me
Stay for eternity

Stay with me
Stay for eternity
That is how it's meant to be, my baby
Stay with me
Stay for eternity
That's how it's meant to be, baby
Baby
Baby
Ooooo

Stay written by Chinara Hill

How can you leave me like this?
I can't believe you're leaving me alone
 To drown in my tears
How could you love me like this?
I don't believe you're leaving me home
 To burn with my fears

 After all of this time
 That seemed like years
Is slippin' away to the waves
 To drift by chance

 I love you too much
 You won't go
 I've loved you so much
 I'll drown too soon
We've loved so much here
Why must you leave me?
 Don't go

 I've loved you since our first kiss
I can't believe we've let this love grow
 To just walk away
 How could I love you like this?
In love with you every tomorrow
 In too many ways

 After all of this love
 That could live forever
Is slippin' away to the graves
 To live by chance

I love you too much you won't go
 I've loved you so much
 I'll drown too soon
We've loved so much here
Why must you leave me?
 Don't go (oooh)

 I will hold on to tight
 When you say goodbye
 I will miss my flight
 Just for one more night
I will pray every star aligns
 So, you stay
 With me forever
 You can't go
 You can't go
 You can't go

 My darling, love
 Stay
 Stay
 Forever

Miss Me written by Chinara Hill

It was time to fly away
A long long time ago
I had to learn the hard way
To truly let you go
I don't want you anymore
I thought I'd never close that door
You don't know me like before
I'm the one that they adore

I know you miss me, sadly
I know it drives you crazy
But they don't treat me badly
They won't drive me insane
They won't bring me no pain

You searchin' for me daily
It used to drive me crazy
But you don't know me, sadly
You won't drive me insane
You won't cause me no pain

It was hard to find a way
So much time I gave to you
I broke my heart for you to stay
And still you chose to go
You can't hurt me anymore
Dropped my heart and now it soars
You won't know me like before
My attention you can't afford

I know you miss me, sadly
I know it drives you crazy
But they don't treat me badly
They won't drive me insane
They won't bring me no pain

You searchin' for me daily
It used to drive me crazy
But you don't know me, sadly
You won't drive me insane
You won't cause me no pain

I found it hard to believe that you loved me
When you made it so easy to forget me
But now that I know what love is
I can tell you it isn't blindness

It's too bad that you lost me
I would hate to know what it feels like to miss me

Change in the Waters written by Chinara Hill

Never imagined this
Never dreamt of it
You saying goodbye
And us parting
If only that embrace,
Had lasted a life time
And as that first tear fell
I turned away from you
'Cause I know we're meant to be
And I will see you soon

A drop of pain that's all it takes
Like a drop of water can change
An Ocean

A change of heart
A change in the wind
A change in the waters
The waters in my soul

And as we spend more time apart
I know in my heart
First kiss to the last
All of our past
Is that all it will take
Is just another retake
And as that first piece broke
I walked away from you
'Cause I know we're meant to be
And I will see you soon

A drop of pain that's all it takes
Like a drop of water can change
An Ocean

A change of heart
A change in the wind
A change in the waters
The waters in my soul

You should know that I weep over you
I can't sleep because of you
I hope you open your eyes
To realize this change
Of heart

A change of heart
A change in the wind
A change in the waters
The waters in my soul

The Way written by Chinara Hill

This is where the beginning starts
I swear I hope we don't fall apart
This is the fight of our lives
We won't ever run out of time
And when we reach that finish line
There'll be a sky full of sunshine
Don't tell me we won't get it right
We know how to put up a good fight

And I know, you know
This the way things have to go

It's not the way that you love me
It's the way you fight next to me
It's not the way that you hold me
It's the way you stand next to me

This is a means to end
I read of days of mighty men
I know the means will be justified
For the many of us who have died
And when we stand at the rising tide
Hearing the sound of the rolling sea
It's the sound of sweet victory
What it means to truly be free

And I know, you know
This the way things have to go

It's not the way that you love me
It's the way you fight next to me
It's not the way that you hold me
It's the way you stand next to me

You won't tell me how to break these chains
You ain't ever even felt this pain
We are gonna reach a brighter day
Don't you tell me how to break these chains

And I know, you know
This the way things are gonna to go

It's not the way that you love me
It's the way you fight next to me
It's not the way that you hold me
It's the way you stand next to me

It's not the way that you love me
It's the way you fight next to me
It's not the way that you hold me
It's the way you stand next to me

Cloud 9 written by Chinara Hill

You're my angel
Found a way to swoop down
And save me from myself

I don't know where I'd be
Without you loving me
Your love's so sweet
It feels so heavenly
I don't know how I'd sleep
Without you touching me
Your arms around me
I feel the warmth of safety

I don't need nothing else around me
Anything I need you'll supply me
Always making sure that I'm good
Don't need to say what's understood
I've never felt so in love before
You're the one I'll always adore

My angel
Found a way to swoop down
And save me from myself
Angel, you came and swooped down
And saved me from myself

I don't know how I'd feel
Without you next to me
I'm on cloud nine
Our love's pure ecstasy
I don't know how you keep
Fireworks and butterflies
Floatin' inside me
You're the only one that I need

I don't need nothing else around me
Anything I need you'll supply me
Always making sure that I'm good
Don't need to say what's understood
I've never felt so in love before
You're the one I'll always adore

My angel
Found a way to swoop down
And save me from myself
Angel, you came and swooped down
And saved me from myself

All Night written by Chinara Hill

I think of you all day long and
I dream of you all night long
Feenin' you all day long and
Seeing you all night

They don't know about us
They don't know about the things we do
Like to talk about us
Just because it's me and you
I want you all the time
You know you're my everyday Valentine
I see you on your grind
Ooh baby you're just so dang fine

I love the way you talk about your dreams
I love the way you take care of me
I need to feel your energy
While we fulfill our destiny

All night
All night
With you all night
All mine
All mine
Kiss you all night

I think of you all day long and
I dream of you all night long
Feenin' you all day long and
Seeing you all night

This is a real love
This is between me and you
Pure as a dove
Baby I know the truth
So grateful that you're mine
Boy you shine like summertime
I need you by my side
Ooh baby you're just so divine

I love the way you talk about your dreams
I love the way you take care of me
I need to feel your energy
While we fulfill our destiny

All night
All night
With you all night
All mine
All mine
Kiss you all night

I think of you all day long and
I dream of you all night long
Feenin' you all day long and
Seeing you all night

OUTERSPACE written by Chinara Hill

Y'all gonna hear me this time

Iiiiiiiiiiiii've been screaming out
They want to count me out
They been thinking that
That I been in a drought
But you can't keep me down
I know you hear the sound
I'm gonna make 'em drown
In their tears and all their fears
'Cause I know that they hate when I appear
But I don't care what you heard or what you hear
'Cause I'm the baddest around without a care
Don't need your opinion, if you weren't aware
It's the 21st century, get a check
You broke but think you can get my respect
Keeping my foot on your neck
'Cause I'm not letting up
After all these years
I'm only getting up
Can't give you the satisfaction
No more distractions
Call action

Iiiiiii'm ignoring everything they said to me
Ignoring everything they said I couldn't be
Who are they anyway
Who are they who are they to tell me anything
Get out my face
You ain't never been this fly
You can't relate
I'm on my way
It's way to wavy in my space
I'm on my way
Must be from Outer space

Ohhhhh I been working out
They see what I'm about
I know they talking smack
But what comes out they mouth
I just can't hear a sound
I put my feet to the ground
And now I'm running rounds
Through my tears and all my fears
It's time to get to the money and that's clear
I'm ignoring the voices, I'm not scared
Just know I'm coming in first, get prepared
It's funny to me how they neglect
To see me for who I am but they're inept
I'm the true IT girl
And I'm not giving up
I'm the Queen of his world
I only live it up
It's a dream 'til it's action
Seems unreal 'til it happens

You won't get a reaction
See I'm gaining more traction
Got no time to relax and
I'm so close it's impacting
So,

Iiiiiii'm ignoring everything they said to me
Ignoring everything they said I couldn't be
Who are they anyway
Who are they who are they to tell me anything
Get out my face
You ain't never been this fly
You can't relate
I'm on my way
It's way to wavy in my space
I'm on my way
Must be from Outer space

Iiiiiii'm ignoring everything they said to me
Ignoring everything they said I couldn't be
Who are they anyway
Who are they who are they to tell me anything
Get out my face
You ain't never been this fly
You can't relate
I'm on my way
It's way to wavy in my space
I'm on my way
Must be from Outer space

Hot Outside written by Chinara Hill

Oh it's getting hot outside (Summer baby)

It's getting hot outside

It's summertime and I'm feeling super fly
Got my hair did waste snatched
He say I'm a catch
I'm twerkin' with my girls on the dance floor
He bites his lip and I know that he wants more
If you a hot girl show him what you're good for (Better show him)
If you a good girl show him what you're made for (Keep shakin')
Sky is dark but the air is warm
I got my skin out (Got it out)
And he lookin' at my form
Hold my hand better know how to perform (Better know)

The liquor got me thinkin' he's the one (Oh no girl)
Now I'm sober and girl I gotta run (Better)

I'm 'bout to catch a ride
You know I hate to drive (Passenger Princess)
Got my ass out too
Hair down to my waist (40 inches)
I know you want a taste

It's getting hot outside
I'm 'bout to catch a ride
You know I hate to drive (Yea you know)
I got my ass out too
Hair down to my waist (Got it out)
I know you want a taste

Now we walkin' through the club turnin' heads (Oh he cute)
All these niggas want us sleeping in they beds
Pretty body, pretty face, catch a case
If he touch me imma hit him with some mase (Don't touch me)
If he a cutie he can come to my place
But imma bring the switch just in case
Where the bad bitches who don't like to play
Who got dollas and won't be in my face (Get the money)
Ain't no niggas in our section
We don't need no protection
We got bottles not shots
And we kickin' depression
It's a hot girl party

We don't feel the recession (We don't feel it)
Ain't no hate between my girls
You the one that's stressin' (Stop stressin' girl)

Ayyy we 'bout to have some fun (I'm havin' it)
Ayyy the booty got him stunned (Got him starin')
Ayyy we 'bout to have some fun
Been a good girl now it's time to get up front

It's getting hot outside (It's hot)
I'm 'bout to catch a ride
You know I hate to drive
Got my ass out too
Hair down to my waist
I know you want a taste

It's getting hot outside (Too hot)
I'm 'bout to catch a ride
You know I hate to drive
Got my ass out too
Hair down to my waist
I know you want a taste
